Sustainable™

to provide a cement recycling service!

Lafarge Cement will now **collect** and **recycle** your out-of-date, undamaged packed cement.

HELPING REDUCE YOUR RECYCLING COSTS

Undamaged, unusable cement is normally disposed of by:

- Dumping at valuable landfill space.
- Throwing in expensive to hire skips.
- Simply discarded and left in the yard or on-site.

THERE IS AN ALTERNATIVE

Our recycling service will:

- Collect from your yard and recycle any out-of-date, undamaged Lafarge Cement bagged product (not hard) from 1 bag up to a lorry load.
- Plant a tree with the Local Community School near Barnstone for every tonne of cement salvaged.

For more details and cost contact Customer Services on: **0845 812 6300**

We will also remove your broken and surplus pallets for FREE

- Collect all your unwanted pallets.
- Refurbish them.
- Put them back into service.

Contact our pallet recycling partner ELM, for more information on: **0800 282 488**
